

DEPARTMENT OF RADIOLOGY RESEARCH & SCHOLARLY ACTIVITIES POLICIES

Department of Radiology policy on Departmental support of statistical consultation and services for academic research by Departmental faculty:

The Department of Radiology will fund up to 10 (ten) hours of statistical research consultation and service through the University of Illinois at Chicago Center for Clinical and Translational Science Biostatistics Core (or an equivalent Center) for each academic or clinical track Department of Radiology faculty member per academic year. Statistical support funding requests in excess of allotted support can be self-funded by individual faculty investigators through intra- or extramural grant mechanisms (or the equivalent), or presented to the Department of Radiology Research Review Committee for approval of additional support, determined based on individual project merit.

Department of Radiology policy on Departmental support of meeting/conference presentation by Departmental faculty, trainees, and medical students:

Oral scientific presentations: (one attendee per presentation)

- Departmental faculty: meeting registration, travel (airfare), and lodging (2 nights) provided for approved domestic conferences (or conferences prospectively approved by Radiology Vice Chair for Research)
- Fellows/residents: meeting registration, travel (airfare), and lodging (2 nights) provided for approved domestic conferences (or conferences prospectively approved by Radiology Vice Chair for Research)
- Medical students: only supported if traveling in lieu of Departmental faculty or fellow/resident

Poster scientific presentations: (one attendee per presentation)

- Departmental faculty: meeting registration, travel (airfare), and lodging (2 nights) provided for approved domestic conferences (or conferences prospectively approved by Radiology Vice Chair for Research) with reimbursement contingent on manuscript submission
- Fellows/residents: meeting registration, travel (airfare), and lodging (2 nights) provided for approved domestic conferences (or conferences prospectively approved by Radiology Vice Chair for Research) with reimbursement contingent on manuscript submission
- Medical students: only supported if traveling in lieu of Departmental faculty or fellow/resident, with reimbursement contingent on manuscript submission

Invited lectures: Not supported

Note: Meeting support requests beyond those indicated may be presented to the Department of Radiology Research Review Committee for consideration.
